

Creamy Ranch Pork Chops in the Slow Cooker

This is an easy dish to put together, requires few ingredients, and is flexible.

You can use any cream soup you like. Here, we're using cream of chicken, but cream of celery and cream of mushroom are also good. If you use cream of mushroom, you can also add some canned mush-

rooms.

Be careful with whatever additional seasonings you use. Both the soup and the ranch dressing are high in salt, so a low-salt or no-salt seasoning is a good option.

Ingredients

- 2 pounds pork chops; boneless preferred
- 1 can cream of chicken soup
- 1 packet ranch dressing (or 3 Tbs bulk mix)
- 3 Tbs corn starch

Method

1. Mix the ranch dressing mix, corn starch, and the cream of chicken soup together.
2. Pour half of the soup mixture into the slow cooker.
3. Add the pork chops to the slow cooker.
4. Season the pork with whatever seasonings you like.
5. Pour the rest of the soup and ranch mix over the pork chops.
6. Cook on HIGH for 3-4 hours until pork chops are tender.
